

## PRESS RELEASE

**CellMade™ announces exclusive distribution agreement with Clinisciences™ Group raising accessibility to CellInsight™ products and services in Europe, Northern Africa and the United States**

May 26<sup>th</sup>, 2020

CellMade™, a French research and innovation company dedicated to inflammatory and metabolic diseases, today announced an exclusive agreement with Clinisciences™ Group, provider of instruments, reagents and consumables for the life sciences markets, for the distribution of the CellInsight™ products and services lines. Under this agreement Clinisciences™ Group becomes the exclusive distributor of CellInsight™, innovative products and services with applications in inflammatory and metabolic diseases research, in *Belgium, France, Germany, Ireland, Italy, Morocco, Netherlands, Portugal, Spain, Switzerland, Tunisia, United Kingdom, USA*.

“Since CellMade’s inception, we have been focusing on developing our proprietary CellInsight™ technology platform combining tissue acquisition, cell biology, cellular engineering with high-end analytical solutions being cytometry coupled to mass spectrometry. CellMade™ developed strong expertise in discovery, development and validation of biomarkers for inflammatory and metabolic diseases. The CellInsight™ technology enables scientists to define and design a comprehensive biomarker strategy *tailored to their specific needs*. We are now in a phase of great expansion and extending our market coverage with the support of reliable and long-term partners. In that perspective, we are very pleased to announce our agreement with Clinisciences™ Group to distribute our CellInsight™ products and services products lines in high potential markets, said Ronald Bronsaer, CEO at CellMade™.”

The distribution agreement with Clinisciences™ Group is effective immediately and covers all CellInsight™ products and services.

**About CellMade™:** A Biopharmaceutical company studying metabolic dysfunction at the basis of widespread diseases such as obesity, non-alcoholic fatty liver disease, type II diabetes and cardiovascular diseases. The Company established joint laboratory facilities with the University Savoie Mont Blanc and is located within the University laboratories at the scientific development campus of Le Bourget-du-Lac (France).

**About Clinisciences™:** A life sciences distribution company with highly trained and operational sales teams dedicated to sales of instruments, reagents and consumables in high potential markets. Clinisciences has central warehousing facilities in France and operates a network of local representation in *Belgium, France, Germany, Ireland, Italy, Morocco, Netherlands, Portugal, Spain, Switzerland, Tunisia, United Kingdom, USA*
